**UKRAINE vs RUSSIA + CHINA vs TAIWAN  
= 3rd World War!!**

**With Greatest Respect,  
My ELFO Family,**

**Greetings!**

Presently we all are rapidly moving up to an unnatural end, under the shadow of NUCLEAR WEAPONS, within the context of worldwide moral crisis in political ethics.

At the forefront the global community is baffled by the means to prevent global warming, pandemics and other natural and man made humanitarian crisis. On the other hand our great global leaderships are developing and using the weapons for mass destruction to destroy our planet forever.

After all the UN member states had failed to ensure our safety, due to a selfish policy concerning the basis for

# Mass destruction weapon Contemporal risky world

Regarding Russo-Ukrainian Crisis and War, the ELFO GA (General Assembly) adopted several members' STATEMENTS as its policy, and mine (p.3) was decided by the GA Chair Irina Karpekina to be alike its policy in March 20, 2022. And I sent her the following message:

Thanks Ma'am.

Lots of thank for this important. We believe, UKRAINE RUSSIA CONFLICT is not the end, it is the beginning of the situation that would lead the world to an unnatural end, within the context of moral crisis in political ethics worldwide.

OUR COMMON NEGLIGENCE – THE REAL OBSTACLE FOR MAKING THIS PLANET SAFE FOR ALL

“We may have different religions, different languages, different colored skin, but we all belong to one human race – Kofi Annan”.

Is it true?????

It had been always lethal to write or address in favor or against the institutionalized faith of human being divided by several religious and political strictures.

There is no doubt, presently political race is beyond all, leading this current human race to an unnatural end.

What is politics in actual fact?

Politics is a beautiful maze to embroil the human perception only to rule over them all for personal beneficence. It is not for what the public need. Its ethics are based on what the leadership with great speeches and empty promises needs to strengthen their own sovereignty and that is what we do mean by the root cause of dictatorship in actual fact.

Root cause of dictatorship in democracy = (Not in all democratic countries, but in most of all) it holds several ensign with equal intention and that is determined to embroil the public perception in mazes of racism, radicalization and caste system that strengthen by corruption, engaging the mafia culture while disgracing the sanctity of law and constitutions by the money power. In fact we cannot even think about peace, development, human rights, justice and social diversity where Mafia culture is in position of leadership at ground, using the government's public funds to increase their vote bank for the leadership in ministry. Many countries ruled by the corrupt armed forces are even masked behind the fame of democracy.

We mean, presently timocracy behind the sanctity of democracy is navigating the public at large, using the professional MEDIA as a political tool. Here you will have to be the part of any political party to stay alive with your business, otherwise you are a rebel.

Communist dictators = Enslaves public perception mostly by gun power, here humanity or human rights is a forbidden issue. Assassinations of the opposition straightaway and mass killing is their basic potential, that help their top leadership to rule over public as dictator. You will have to follow them if you want to stay alive. They use MEDIA to hide their political sins and to strengthen their corrupt system against humanity.

We all are well aware of these true facts, but we all are helpless, because this current human race is dedicated to grab prosperity for peace, neglecting the basic sources of the ideologies to achieve prosperity through peace.

We mean, within these circumstances it is impossible for the public at grass root (The real victims of racism, radicalization, corruption and war) to support their leadership to prevent the clash between

ONE WORLD ORDER and NEW WORLD ORDER that creating the basis for 3rd WORLD WAR.

“I know not with what weapons 3rd World War will be fought, but 4th World War will be fought with sticks and stones – Albert Einstein”

More than that, now Nature is fury, rapidly moving up for self reformation. At the fore front the global community is baffled by the means to prevent the global warming and to overcome the perils of the epidemics as COVID19, H.I.V, Ebola etc. On other hand the global leadership are rapidly developing the weapons for mass destruction which might destroy this planet forever and we are not in position to ask them “WHY?”

Though the modern technology had already provided us a platform to stand together from any part of the world, but due to lack of a basic ideology to bring all together accord to the need of this contemporary world, thus we are nowhere near to make this planet safe for all and our future generation.

In fact, it is impossible for any individual from any profession, organization, country, community or sect and even for the global leadership or world's leading religious instructors to come forward with an ideology to bring all people together and make this planet safe from nuclear proliferation, racism, radicalization and war within the context of the moral crisis in political ethics.

Presently all around the world, negotiation for peace in any form, is a political business to take advantage for building up a strategy for power to rule over each other. So we can see how the

budgets to develop mass destructive weapons are increasing day by day, but there is no fund to develop the intellectual resources that would help the global leadership to bridge up the gaps between human perceptions in actual fact. Some ongoing peace process and unity for diversity is embroiled in mazes of several political and religious strictures and stands beyond the reach of the people at grassroots level.

Now when deadly weapons for mass destruction are ready on ground, in sea and at sky to bring annihilation, how it is possible for all people to save this human race rushing up to an unnatural end?

Answer of this world's most complicated question is very simple and what we do need to understand the lethal aspect of this human race is our devout attention and dedication to make this planet safe for all.

“More than ever before in human history, we share a common destiny. We can master it only if we face it together. And that, my friends, is why we have United Nations.” = Kofi Annan.

What is the solution in actual fact?

## STATEMENT on UKRAINE- RUSSIA WAR

==== SOLUTION IN ACTUAL FACT ===

The Earth-Loving Friendly Organization  
Acting Chief of the Peace Council

Ajay Singh

March 12, 2022

Sign of oncoming annihilation !

ELFO's 7 Predecessors of STATEMENT said many constructive views of what I wated to state. I add, therefore some points to them.

First of all, I welcome the first negotiation between both belligerents' Foreign Ministers in Turkey (March 10, 2022). It is imperative to continue negotiation because severance of diplomatic relation may lead to fatal catastrophe.

Secondly, more or less mutual compromise is necessary by all means. If Russian Government cannot make no concessions in respect neutralization and demilitarization of Ukraina, it is very desirable that it should make also its own compromise from Russian side.

Thirdly, TRANSFORMATION of the UN.

Now nuclear proliferation is expanding, promoting the market of destructive weapons.

Do the United Nations mechanism and bureaucracies have enough potential to lead the global community on the path toward peace and propel those in positions of leadership to overcome complicated political

issues, humanitarian crises, and war?

(No! Paying respect to the United Nations for its many achievements, I say that the UN system and bureaucracies are embroiled in the mazes of the premeditated policies that were designed at the time when the UN was created in 1945.

Now it is the time to strengthen the United Nations as a body to aid in formulating direct relationship with the public at the ground level.)

.....In fact, it is the time to unite all people beyond the boundaries that divides all of us for political and professional beneficence, leading all of us to an unnatural end. We mean leadership is an embodiment of public perception, that leads us on path to heaven or hell.

To overcome this peril please join us by following up ..... <https://lnkd.in/gPhVSgN> -

It reveals the root cause of all the problems that creates the basis for terrorism and war. We have specially designed this "EDUCATIONAL INITIATIVE" to help the world's leadership and all leading religious instructors who thirst for a unanimous conclusion for global security in the current predicament of nuclear proliferation within the context of the moral crisis in political ethics.

PLEASE SHARE - for global unification to ensure the safety of our future generation, without any COST or EXTRA EFFORT.

Thank you.
