

Earth-Loving Friendly Organization

Interstate Council

for national and humankind interests

*Invitation to the Interstate Council
where you can feel at home*

ELFO President Rikio Kaneko

Innovative Solidarity System!!

**Even though States quarrel,
All the VIPs and Dip. can be calm!**

Dear VIPs and Diplomats

Hopefully you and your family are fine.

I have honor to express, from the bottom of my heart, that I want your Excellency so much to join our world-wide inclusive **ELFO** (Earth-Loving Friendly Organization) which is developing bigger month after month. Now as of July 19, 2021 there are more than 130 VIPs and Diplomats in our ELFO, and about 1300 various members from around the world.

Our ELFO is only one unique international organization where VIPs and Diplomats can feel not only friendly atmosphere, but also it is guaranteed by our excellent **SD (Solidarity System)** which the ELFO Charter and other rules stipulate.

(See pp.1~3 of the URL <http://mopw.org/e-SC-n2.pdf>)

In the United Nations unfriendly States' Diplomats are unamicable, while **in our ELFO they can be amicable, and must be so. Here you can see HOPPES and LIGHTS of future**, on which you will see a concrete case in the present mail magazine:

As our ELFO is contributing, among others, to **international friendship, peace and rule of law**, when a member-Diplomat was afraid of war among Egypt, Ethiopia and Sudan, our ELFO sent to the 3 conflicting States a **peaceful PROPOSAL** to the effect that **if they cannot settle a problem of a dam construction, we propose to submit the case to the International Court of Justice.**

And our ELFO adopted Regional Solidarity system which will solidify regional friendly relations.

Solidarity Council

This Solidarity system is an international election system which meets the demand of the 21 century.

One World Electoral District (OWED) is what is to be created in future, but its regional variation of

Regional Electoral District

(RED) may be conceivable. As it may be so difficult to realize such system soon, the ELFO General Assembly decided to promote it, firstly, within the ELFO itself.

Friendly diplomatic relations among ELFO members

Regional ELFO Solidarity Council

The General Assembly created Regional ELFO Solidarity Council **(RESC)** as follows:

1. Composition:
 - a. (...Omission...)
 - b. The RESC may be composed of the ELFO President, (...Omission...) and **all the Diplomats and the members of concerned States of a given conflict.** (...Omission...)
2. Functions: Principal function is to contribute to the peaceful settlement of a given conflict, (...Omission...)
3. Principles:
 - a. Every member shall try to be friendly, avoid unfriendly words and behavior.
 - b. Every member shall refrain from asking other members to take an important action when situation is not clear, and while the RESC is deliberating the given conflict.
4. (...Omission...)
5. **Present rules shall be applied not only in time of peace (including time of severance diplomatic relations), but also in time of war, provided that in case of war present rules shall be applied harmoniously with domestic laws of belligerent States.**

In international law is system of 'Protecting Power' i.e. a neutral State entrusted by the belligerent with the protection of the interests of its nationals. Likewise in time of war our RESC, which is neutral, may be conducive to the belligerents.

Mechanism of promoting friendship

In the United Nations it is very difficult for diplomats of rival States to promote friendship between them. On the contrary, I am sure, in our ELFO they can be maintain friendship, or rather promot it. Because essentially our ELFO is of such character. See ELFO Charter, please.

Article 11 (Friendly character) stipulates as follows:

1. the Organization shall attach a great importance to its friendly activities as participants in Ancient Olympic Games stopped war and enjoyed games.

2. the Organization shall open an actual international meeting so as to promote international friendship and mutual understanding, conducting adjustment of difference of opinions through daily communication by telephone, fax, Internet, etc.

3. In any case, assuming friendly and constructive attitude, a member shall refrain from emotional self-righteous speech and action.

Invitation to our ELFO as an observer

If VIPs and Diplomats want to be an observer, who can receive important info regularly on our activities, we welcome also such kind of involvement.

These days our ELFO became more active: It began to cover various international fields such as denuclearization of East Asia, Peace Congress in the UN of 2024; investment in gold mine and fisheries; projects of the Earth-Loving Friendship Universities; and Earth-Loving Amicable Festival etc. and VIPs and Diplomats are interested in them, too!!

Our Interstate Council of the ELFO paid due attention also to miserable **Israeli-Palestinian cinflict**, and adopted unanimously decision on peaceful settlment, applying solidarity system of the ELFO. (See P.S.).

Now ELFO General Assenply adopted very important **Principles of disarmament**. (See P.S.)

In order to promote rule of law in our Earth community, the ELFO created an **ELAC** (Earth-Loving Amicable Court) though it is also 'a baby'. There are several kinds of courts, some of which began to open their door. These courts have jurisdiction only when **conflicting parties agreed to it by compromiss**.

Our ELFO is such an inclusive Organization that its 23 Councils will treat many international matters.

VIPs' & Diplomats' Privileges

VIPs and Diplomats have considerable privileges in our ELFO in 2 sectors: votes and investment.

A. **Votes**: even one Diplomat has as many votes as a Head of State, ratio of its population being taken into account. Thus, for example, an Indian Diplomat has 80 votes. If more than one diplomat from one country become a member of the Council, each additional member will increase the basic votes of a given State by 20% and the cumulative votes will be prorated among the diplomats.

B. **Investment**: In July 20, the Interstate Council decided that the ELFO shall pay much attention to the VIPs' and Diplomats' countries when ELFO promote such projects as defeating Covic-19, the ELFU (Earth-Loving Friendship Universities), ELAB (Earth-Loving Amicable Bank), the ELC (Earth-Loving Company), the ELAF (Earth-Loving Amicable Festival) etc.

Let's create better Earth!!

VIPs and Diplomats' great roles!!

P.S.1. URLs of the ELFO

9. Annual membership fee: at p.5~6 of URL:
<http://mopw.org/e-economic-sc.pdf>

P.S.2. Activities of Nowadays

Though our ELFO is, so to speak, a baby less than one year, it is growing stronger day after day. As you see here, it adopted already several important decisions such as concerning construction of Renaissance dam in Ethiopia, Israeli-Palestinian conflict, creation of the ELAC (Earth-Loving Amicable Court), Principles of disarmaments etc.

A. PROPOSAL sent to African conflicting States

It reads, among others, as follows:

Our dear member-Diplomat [Amr Mahisin](#) was very apprehensive of worsening situation concerning construction of the Renaissance dam, which may lead to war, and our ELFO GA (General Assembly) paid due attention to it, knew seriousness of the conflict, and in May the 3rd, 2021 the GA adopted unanimously 3 Articles, which, we suppose, you have already read.

This time our ELFO has honor also to send the PROPOSAL N.2 to our 3 Dear Heads of State

relating to Renaissance dam construction, with some phrases (red ones) added to the 1st PROPOSAL and with quite new addition of paragraph 4:

*Our ELFO wishes that the case concerning Renaissance dam be settled peacefully and fairly by diplomatic negotiation **or other peaceful means of settlement such as conciliation etc.** ;*

*If Parties to the present conflict cannot settle it by diplomatic negotiation **or other peaceful means of settlement**, we hope that the case will be submitted to International Court of Justice;*

Anyway we wish that Parties to the present case and concerned persons refrain from warlike words, threat of force, much more preparation for war and actual war.

===== Solidarity

Council =====

This Solidarity system is international election system which meets the demand of the 21 century (<http://mopw.org/e-SC-n2.pdf>, pp.1~3). One World Electoral District (OWED) is what is to be created in future, but its regional variation of 3 States Electoral District (3SED) may be conceivable.

Concerned Sates may create 3SED as they like. Our ELFO suggests, however, that if it is difficult for the 3 States to create it, then our ELFO propose the following standard model:

- a. 50 Parliamentarians whom a Diet of each State appoints shall be an elector
- b. From each State may be elected Solidarity Councilors from 18 years up, with due regard to ratio of national population. This grouping of ratio of population shall be as follows:

Group	National Population	The number of the elected
A	under 100 million	10 person
B	100 million up and under 1000 millions	20 persons

(Population of Egypt 100, 388, Ethiopia 112,079, and Sudan 42,813 as of 2019)

- c. Principal function of the Solidarity Council is to contribute to settlement of conflicts among Egypt, Ethiopia and Sudan.
- d. These Solidarity Councilors will have diplomatic privileges and immunity.

Our ELFO wishes, from the bottom of our heart, that present case be settled by peaceful means, neither by force nor self-righteous action. War would surely cause not only huge economic loss, but also numerous deaths which would redden mother-Nile with blood.

On the contrary, we wish concerned countries:

Development, Welfare, Commonwealth,

Cooperation, New Orders

(From 55 Golden Words of Earth-Loving Amicable Way)

Very respectfully yours, July 23, 2021

B. Israeli-Palestinian Conflict

Now our Interstate Council deliberated Israeli-Palestinian conflict and adopted also unanimously PROPOSAL to be sent to conflicting parties to the following effect:

1.to stop immediately military action if any, and never commence hostilities;

2.to receive supervisory organ of the United Nations to ensure and maintain peace:

3. to submit settlement of conflicts to the ICJ (International Court of Justice) if they cannot solve by other peaceful means;

4. to creat a SC (Solidarity Commission), members of which will be elected by 50 Parliamentarians or Deputies of both conflicting parties respectively.

Such kind of the SG derives from our ELFO Solidarity system promoting friendly relations, which may be applied to any international conflict.

The Interstate Council is going to deliberate also **international conflict around Cameroon** soon.

C. Principles of Disarmament

On the otherhand, ELFO Solidarity Council deliberated **Principles of Disarmament of weapons of mass destruction**, the draft of which I had presented, and adopted it that reads as follows:

Nuclear weapon is an enemy to all human beings

Principles of Disarmament of weapons of mass destruction

1. Earth-Loving Friendly Organization (ELFO)

and all its organs shall be opposed to increase of production and export of weapons of mass destruction (nuclear weapons, biological weapons and chemical weapons) and conventional weapons.

I am sure that all or almost of the Solidarity Councilors agree to this view point because their mind is Earth-loving. But in our ELFO there are also members from a country possessing weapons of mass destruction, they have a right to express their own opinion.

2. Convinced that, first of all, the two great nuclear-weapon States shall decrease their unnecessary nuclear warheads early and considerably, the ELFO aims at the stage, as one of its nuclear diplomatic purposes, where the sum of the nuclear warheads possessed by these States will amount to the sum of the nuclear warheads possessed by the other nuclear-weapon States.

In early 2019, more than 90% of world's 13,865 nuclear weapons were owned by Russia and the United States.^[19] (https://en.wikipedia.org/wiki/Weapon_of_mass_destruction)

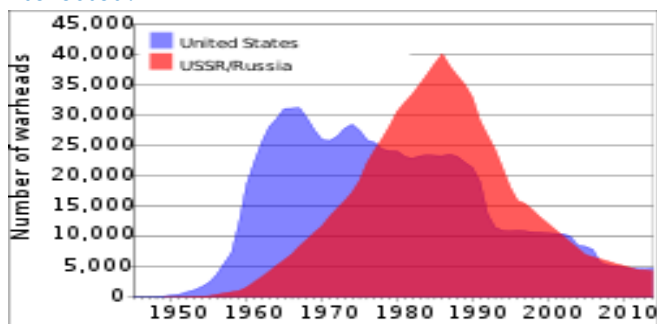

3. The ELFO is based upon the position that nuclear-weapon States shall agree not to carry out preemptive strike by their nuclear weapons nor to attack by these weapons against non-nuclear-weapon

States, and that, while the two great nuclear-weapon States are reducing weapons of mass destruction, the other States possessing such kinds of weapons shall not increase nor develop them.

4. In process of comprehensive general and complete disarmament by all the States of the world the disarmament shall be carried out under strict and effective international control.

5. A State possessing weapons of mass destruction or conventional weapons shall abolish them early or, if it is impossible, pursue to reduce them and military personnel by stages, and owe a duty to possess them very restrictively or abolish them at the last stage.

6. The ELFO supports that States will create and enlarge denuclearized zones where they prohibit not only possession of nuclear weapons, but also their production, distribution and carrying in there, will present its own proposal to States and organizations interested.

https://en.wikipedia.org/wiki/Weapon_of_mass_destruction#International_law

D. Rule of Law on our Planet

From a view point of rule of law current international community is primitive. Only 1/3 (one thirds) of States agree to the jurisdiction of the most authoritative Guardian of law: International Court of Justice. How can a Government maintain domestic order if it would be permissible that 2/3 of its nationals don't agree to jurisdiction of domestic courts?

It is clear that our ELFO must contribute to promoting rule of law on our Planet. So that the ELFO Charter lays down establishment of the Earth-Loving Amicable Court (ELAC) for all humankind, and in December of 2020 the General Assembly adopted "Purposes and Principles" of the (ELAC), which reads as follows:

THE STATUT OF

THE EARTH-LOVING AMICABLE COURT

CHAPTER 1 Purposes and Principles

Article 1 (purposes) The principal purposes of THE EARTH-LOVING AMICABLE COURT (ELAC) are:

1. to contribute to the settlement of conflicts and establishment of peace in the vast space from the view point of values not only of States but also of all mankind, all the Earth and the Cosmos, forming a clear view of the demand of the times;

2. to contribute to the settlement of social, environmental, human rights problems and disarmament problem including the nuclear weapons, and for this purpose to strengthen world-wide or regional cooperation;

3. to give legal advices, to answer legal questions, and approaching contesting parties friendly, to exercise good offices, to mediate among parties and to undertake conciliation, contributing to the settlement of the conflicts;

4. to request the contesting parties to submit the problem to a court of justice when they cannot settle legal contentious problems by negotiation and the other peaceful means;

5. to open the door of the ELAC when there is not response to the said request, and to show the most authoritative and solid legal judgment in the world in which many ELA-Friendly Judges (ELAFJ), and ELA-Friendly Advocates (ELAFA) may take part; and

6. to establish permanent ELAC Regional Courts in the regions to which jurisdictions of courts of justice do not reach unconditionally and where "rule by force" stalk with a haughty air, and to make efforts to establish "the rule by law".

Article 2 (principles) The ELAC shall follow the below-mentioned principles.

1. In the ELAC shall dominate the principles of pacifism, democracy, respect of human rights and participation of the general public in a certain matters;

2. The ELAC shall respect international law and not intervene in the internal matters of any State, shall not discriminate apriori (in advance) against specific nations nor stimulate bad national emotion;

3. On legal judgment, the ELAC shall make an effort not to bring forth a duality of norms between existing law and the legal judgment, provided that Judges shall take into account the necessity of development of the Earth Community in accordance with demand of the times;

4. The ELAC is one of Principal organs of the ELFO of international NGO of neutral and all humankind character, and shall not be, in principle, a legal person of any country, provided that the ELAC shall cooperate with the Governments, the United Nations, international organizations, NGO and NPO;

5. The ELAC ~~shall~~ (→may: it's ELFO President Rikio's proposal) be composed of ELAFJ (ELA Friendly Judge), ELAFA (ELA-Friendly Advocate), ELAFC (ELA-Friendly Conciliator) and Registry.

6. The ELAC shall advise many times contesting parties to compromise during litigation; and

7. In the ELAC the principle of parties' autonomy shall be recognized widely so far as it does not infringe both domestic law and international law.

a. When conflicting parties want help of the ELFO members besides the those of the ELAC, the latter shall not intervene in their affairs;

b. When conflicting parties want an ELAFA to be their Judge, the latter may agree to it;

c. When conflicting parties wish somewhat special requirements or special composition of an

ELAC for them, such a temporal Court may be created.

8. The ELAC is based, as a rule, on members' good intentions and volunteerism, provided that the ELAFJ, ELAFA, ELAFC and parties to a conflict may agree to payment for remuneration.

In December of 2020 the GA also decided: **“from now on present and former Judges and Advocates may act as ELAFJ and ELAFA so far as such actions are neither against domestic nor international law.”**

The ELAC is very innovative Court for all human beings, however, with restrictive functions in a sense that it has jurisdiction, in principle, when conflicting parties agree to it by compromise, and that it will never use force.

Even so, some may doubt its legality: is it permissible to create such court? So I will show some cases which will avoid such a doubt:

1. Island Palmas case: One Judge Prof. Max Huber, (above pic.) a Swiss lawyer and diplomat, settled Palmas case within **3 years and 2 months**. https://en.wikipedia.org/wiki/Island_of_Palmas_Case

2. Walfish bay case: Don Joaquin Fernandez Prada, Prof. of international law of Madrid University, settled the case within **2 years and 3 months**. http://legal.un.org/riaa/cases/vol_XI/263-308.pdf;

3. Mt. Arlu case: This case is very interesting in the sense that it was settled with **4 days** by King of Saudi Arabia.

4. The Attilio Regolo and Other Vessels case: Arbitration agreement of 29 December 1944. Award: 14 January 1945. It was decided within **17 days** by one Arbitrator Prof. Jose de Messia of the University of Madrid. Parties are 4 States. https://legal.un.org/riaa/cases/vol_XII/1-11_Attilio.pdf

The ELFO has created Plural Judges Human Rights Court, Plural Judges Territorial Arbitration Court etc. and now the General Assembly adopted a decision on **Friendly Interim Court** as follows:

The FIC shall only conduct preparatory affairs and preparatory trial of a case submitted to the FIC, and not examine any question of the merit, provided that the FIC may recommend Provisional Measures or Urgent measures to contesting parties.

Firstly, the FIC can recommend Provisional or Urgent Measures to the contesting parties. By “Urgent Measures” we mean measures of a provisional nature designed to meet matters of paramount urgency which may be decided by the President alone or on the basis of Judges’ answers to a questionnaire submitted by them.

The President of the Court shall indicate or recommend urgent measures as soon as possible, among others, as for the following acts:

a. Any individual, autonomy and State may submit a conflict which, by their judgement, their right is or will be endangered in the forms bellow mentioned:

b. an act or its preparation which is clearly against law (international or domestic law) and which is condemned by domestic or international society and the United Nations.

c. an act, its preparation or suggestion which is probably against domestic or international law but realization of which would clearly aggravate the circumstances of the Earth or Cosmos.

d. an act, its preparation or suggestion which tramples down lives and fundamental rights of many Citizens as a result of belligerent acts no matter which party is aggressive; and

e. preparation which is probably against domestic or international law, and which would influence upon vested rights and make impossible recovery of the present state probably or perfectly if the preparation would be carried out.

Secondly, even if the FIC is neither able to express its own conclusive opinion on legal facts nor legal principles and rules to be applied to a given case, it may request actors, conflicting parties or specialists to give one’s opinion or evidence and, if the FIC itself is ready, the Court may investigate the case.

Cordification

ELFO President Rikio Kaneko’s proposal:

As is already agreed, a Vice-President of the ELAC, Dr. Prof. Sreenivasulu will

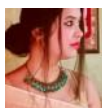

present a draft Statute of the ELAC. He is a Chairperson of a committee for it.

As is expected, the 1st Vice-President of the ELAC, Adv. Sameer Shah will begin to embody a Friendly Interim Court.

As a Judge Praven K. is ready to be a Vice-President of the Court, he will be responsible to make up a draft code of Plural Judge Courts.

As Adv Chitranjali Negi has contributed considerably to starting stage of the ELFO and has written articles on courts by the Internet, and when she agrees, President Rikio Kaneko will appoint her as a Vice-President of the ELAC who makes up an outline of the Administrative Court.
