Earth Loving Company to support POCNA & ELFO

Editor of the present correspondence retired from Sapporo university in 2013, and soon after that on August 22, established a NGO named **POCNA** (Peaceful Organization for Community of Northeast Asia), and in accordance with its Charter, Article 53, I opened the HOUSE for Peace, Welfare, Amity in Nishioka, Sapporo (see bellow. The right house is mine).

Conceptually the POCNA is a gigantic

Organization, and a future **ELFO** (Earth-Loving Friendly Organization) to be created by 2020 is more inclusive. So I felt it necessary to set up a company to support the POCNA and the ELFO financially, and established an **ELC** (Earth-Loving Company) on April 28, 2014.

BNB stimulates creation of many orgs

On the other hand, Airbnb landed in Japan, and Airbnb Japan was created in May, 2014 and the said HOUSE for Peace, Welfare and Amity began bnb business in August, 2015. It turned out, however, that interests of such existing accommodations as hotels or *ryokan* (Japanese-styled inn) don't agree to those of bnb business because the latter began to

collect guests more and more.

And the former side began to attack the latter, authorities throwing a net of an existing law named inn law against bnb businessmen, asking, for example, "Does your house have more than 3 toilets or more than 5 vacant rooms?" Further they said that bnb rooms may be used by terrorists by welcoming uncertain majority. So I began to make an effort to invite a **certain minority** as possible as I can. Backed partly by such situation, organizations **EHSA** (Earth loving Home Stay Associates) as well as **ELAAT** (Earth-Loving Ambassador for Amity and Tourism), **ELCA** (Earth-Loving Company Associate), **ELFOA** (Earth-Loving Friendly Organization Associate) happened to be created.

Members of these NGOs are like-minded people, and on August 25, 2018 I began to call them **ELA** (Earth-Loving Associates).

Let's Sell Earth-Loving Caps

My dear **ELA** (Earth-Loving Associates), up to the present time my Earth-Loving Company issued books named 'Peaceful Organization for Community of Northeast Asia', sold them, produced T-shirts for POCNA with 6 national flag of concerned States, and last month began to sell the Earth-Loving Caps. Of late 3 Germans (bellow) stayed in my HOUSE were ready to produce such caps as are seen in pictures.

Ms. Karima (left), Mr. Maite (middle) and Mr. Mario (right)

I permitted them to use the symbol of my company for their caps. Mr. Jarred, a cook in USA, after having stayed in my HOUSE, also wanted to produce and sell in his state at least.

Ms. Angela (left), who also stayed in my HOUSE, is a specialist of illustrator, will help you add some small design to the original model. The ELC will give you monopolistic right to sell the EL Caps in several cities around you for 2 years without paying any money to my company.

What's ELFO

----- Preamble of its draft Charter -----

When you received my first email, you knew several international organizations, one of which is ELFO (Earth-Loving Friendly Organization). It is not an existing entity, but a future NGO which we want to create in 2020, meeting the demand of modern age.

You will understand the ideals and the purposes of the ELFO when you read preamble of the draft Charter which is as follows:

Charter of Earth-Loving Friendly Organization

WE, THE SUPPORTER OF THE PRESENT CHARTER,

recollecting that as history tells us, for a long time a human society has been of heterogeneous and separated character, constantly conflicting,

in the future, however, having respect for diversity on the Earth community, their culture and tradition, strengthening mutual understanding and solidarity among the nations,

attaching importance to friendly relations among nations and individual friendship derived from a simple fact that we are a human.

reaffirming faith in fundamental human rights, in the dignity and worth of the human person, in the equal rights of men and women and of nations large and small,

promoting conditions under which justice and respect for the obligations arising from treaties and other sources of international law can be maintained,

AND FOR THESE ENDS,

making efforts to change the Earth into not arena of quarrels, but on the entire contrary, into a place where spirit of peace, friendship, welfare, and

cooperation rules, which are sources of brightness and prosperity,

doing much toward establishment, on our Earth, of 'rule of law,' not 'rule of force,' settling international conflicts exclusively by peaceful means, considering one Earth or World Federation,

calling for disarmament and reduction of military expenditure as possible, diverting its reduction to peaceful sector, making our Earth a peaceful zone.

contributing to economic and social progress for each nation, searching for measures that would have a good effect parallel on other fields,

deliberating other international issues, and, if necessary, sending our proposals to interested persons, which are based, on the principle of respect of reasonably national as well as international (all humankind) interests,

practicing tolerance and living in peace with one another as good friends or associates, creating Earth-loving communities in accordance with purposes and principles of the present Covenant,

FURTHERMORE, WITH REGARD TO DEVELOPMENT FROM THE SECOND STAGE,

researching and, if possible, realizing ideas by which our Community would be systematized better in the medium-term and would develop more dynamically along the way toward the one Earth Federation or the World Federation,

idealizing and, if possible, establishing more Earth-loving communities here and there, where people could live without fear, understanding each other, sympathizing and fraternizing with one another

characterizing our Organization as one of the very beginning forms of the World Federation which will cooperate with other like-minded international organizations.
