5 Articles for Earth-Loving Way

My Dear ELA! This time I want to send you not only the former 5 key words, but also 5 new words which seem to be very important for our ELAs:

**Harmony, Respect, Love, Goodness, Beauty
Health, Prayer, Kindness, Introspection, Thanks**

Some ILAs may think that **Harmony, Respect, Love, Goodness** and **Beauty** are not enough for ELs, so that I added 5 Articles of other important acts: **Health, Prayer, Kindness, Introspection, and Thanks.**

Health: It goes without saying that health is one of the categorical necessities in our life, we must, therefore, think out such kinds of Earth-Loving sports as provided for in ELFO Charter (Article 87)

Now I am 77 years old, I can enjoy only light exercises, so these days I am taking a walk, repeating words: **Harmony, Respect, Love, Goodness, Beauty, Health, Prayer, Kindness, Introspection, and Thanks.** But what shall I do when I cannot walk anymore, obliged always to lie in bed? In that case I will repeat these words, counting on my fingers of both hands.

In Sep. 4, 2019) I played park-golf with my wife. It's very light exercise of Hokkaido origin, we can simplify it further as an Earth-Loving park golf.

Prayer: this is a natural act for everyone in relations with oneself as well as others. Further, prayer may extends over nature, even to cosmos. As an ELA let's pray the other ELAs' health and happiness as well as normal movement of cosmos.

Kindness: You know, for example, there are countless children suffering from or hunger who are not responsible for such miserable situation. Suffice to say kindness is high moral in such situation. Old people especially need also our kind words and actions.

Introspection: Human being is neither almighty God nor a perfect existence. Usually he or she makes more or less mistakes; we all make mistake by some norms. It is, therefore, necessary for us to introspect such our acts, and make efforts not to repeat them.

Don't indulge, however, in vain regrets!! We should rather go ahead to any positive aspects, spending more time for them.

Thanks: I preferred 'thanks' to 'gratitude' here because I want ELAs to be grateful to many things and phenomena. Let's, my dear ELAs, be grateful, first of all, to nature of the Earth which makes all the living things continue alive.

As an ELA let's be thankful also to the Earth and the Sun because nature of our life source blesses us, so to speak, with its immense HOUSE on our Earth and it is impossible for green nature to sustain itself without the Sun.

One must be grateful not only to nature, but also to other people who are beneficent to us. One cannot live alone, can live in circumstances where a great number of people cooperate together.

Let's create many local ELFCs:

Earth-Loving Friendly Club

You know, there are already more than 750 ELAs (Earth-Loving Associates) around the world, most of them stayed in my accommodations, and I wrote:

Let's create many national ELFAs:

Earth-Loving Friendly Association

This kind of organizations are of all national or regional character. And now there are such movement in Japan, Mexico, Australia, and Taiwan. Structure of these ELFAs are almost the same.

In Japan it seems that JP Tokachi ELFA will be created soon under the leadership of a former Member of Parliament Tomohiro Ishikawa (right picture).

I sent a draft Covenant of AU ELFA to Representative Mr. Laurence Lavery (left picture).

You know already Mr. Carlos, a passionate musical composer, who estimates harmony and is ready to create Mexican ELFA (right picture).

But these organizations are so gigantic that to move them promptly will be uneasy, while it is easy to create and operate local clubs which can act promptly, stimulating the upper organizations. It's a bottom up!!

Local ⇒ Regional ⇒ National ⇒ World-wide
地方的 ⇒ 地域の ⇒ 国家的 ⇒ 世界規模的
KR Hanam city Earth-Loving Friendly Club

My Korean good guest Mr. Kihyun Kim (right picture) and his wife Samsoon Lee stayed in my HOUSE in Nishioka JUL10 - AUG 21, sometimes playing games with me. They lives in Hanam city, so in August 17, I showed them my draft Constitution of KR Hanam Earth-Loving Friendly Club.

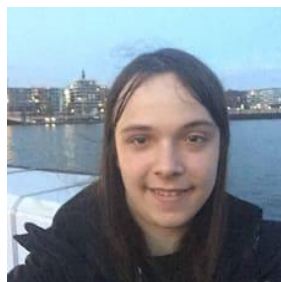

You saw already 'The Constitution of the KR Hanam city Earth-Loving Friendly Club, (Mail Magazine N.10)

The First Club N.1 in Japan!!

Not only I, but also my ELAs, I suppose, are pleased at the first birth of Earth-Loving Friendly Club in Japan.

Mr. Dominic Heil San (bellow picture) who stayed in AUG 22~28, 2019 in my HOUSE for Peace, Welfare and Amity, agreed, while staying here, to the Constitution of the Kyoto City Earth-Loving Friendly Club which reads as follows:

=====

The Constitution of the JP Kyoto city Earth-Loving Friendly Club

We the Supporters of a future Earth-Loving Friendly Organization,

conscious of importance of promoting friendship and partnership not only among us, but also inhabitants and nations in the World,

respecting reasonable national as well as international (all humankind) interests,

aspiring for creation and development of a general Earth-Loving Friendly Organization (hereinafter referred to as the ELFO),

adopted the present Constitution of JP Kyoto city Earth-Loving Friendly Club on the 30-th day of August, two thousand nineteen year.

Actually it was drafted in Sapporo in the HOUSE for peace, welfare and Amity (a left picture). Many guests have lodged here without knowing that the HOUSE is based on a draft ELFO Charter (Article 53).

Blue Italic is a drafter Rikio Kaneko's comment

Article 1 (Purposes and activities) The purposes and activities of the JP Kyoto city Earth-Loving Friendly Club (hereinafter referred to as the Club) are as follow:

1. to strengthen friendship and partnership among the present Club members as well as the other family organizations around the World.

This purpose is the most important in all Clubs all over the World as well as in all Japan.

2. to introduce Kyoto city to the World, promoting exchanges especially in economic, and touristic fields, and if possible, producing Earth-Loving Goods and others.

For example, to produce and sell Earth-loving Caps is very easy for many ELFCs, because its standard are already made up. How about Earth-Loving Kyoto products?

3. to support the said general ELFO, to be its member, to be ready to act for its Kyoto city local branch if our Club and the ELFO agree to such cooperation.
4. to open an Earth-Loving Friendly Party promoted by our Club.

Article 2 (Principles) Our Club shall observe the bellow-mentioned principles:

1. to respect all human being's interests as well as reasonable national, regional and local interests.
2. to be friendly and cooperative beyond race, nationality, religion, party, and a State etc.
3. to respect natural friendship which derives from a simple fact that we are human beings.

Article 3 (Entry) 1. Not only an inhabitant in Kyoto city, but also any person (an autonomy, its component or a company, a foreigner etc.) may be a member of our Club.

So I can be its member, too.

2. In the Club there are 3 kinds of membership: a common member, an organizational member and a ML member.
3. A ML (Mailing List) member has not any duties in relations with the Club. Any ML member has one vote, the right to be a candidate for staff, to join events.

Article 4 (Principal organs) 1. In the Club there will be established, as its principal organs, a General Assembly, a Representative, a Secretariat.

Any ML member may be a staff of these Principal organs. So it may be possible that all the members of the Club are ML members if they like such a form.

2. Representative has a primary responsibility to manage the Club and may appoint its staffs.

Article 5 (Membership fee) A common member's annual membership fee is 1000 yen, and organizational member's is 20,000 yen.

Of course, a special budget is compiled as for a

special plan, for example, at the time when there will be a party.

Article 6 (Cooperation with the ELFO) A Representative shall try to conclude an agreement with the ELFO and other family organizations to the effect stipulated in Article 1, Paragraph 3, provided that after its conclusion members of our Club will be exempted from annual membership fee of the said organizations.

You know, character of a local ELFC, a regional ELFA (Earth-Loving Friendly Association), a national ELFA and a world-wide ELFO are almost the same: friendly, Erath-Loving and peace-loving. If each member were to pay membership fee to these kinds of organization respectively, it would be tiresome, complex and negative, so I adopted the present Article, which would not be burdensome, but strengthen family organizations around the World.

Article 7 (Seat) The seat of our Club is located in Kyoto city, Japan.

Article 8 (Signature) The present Constitution may become effective when 3 supporters agree to the present Constitution of our Club.

And the present Constitution of our Kyoto Club became effective in August 30, 2019 with Mr. Dominic Heil as Representative of the Club, me and my wife as a ML member.

Mr. Dominic is a German student studying in Kyoto University (bellow picture). I expect the Club will develop in Kyoto as one of the leading Clubs in Japan.
