

Earth-Loving Friendly Organization

President of the said ELFO
Hon. Prof. **Rikio Kaneko**

On my initiative an international organization was created in August 22, 2013: **POCNA** (Peaceful Organization for Community of Northeast Asia) and, making good use of my experience there, now at last on 1st day of January, this year we succeeded in establishing a more inclusive and more innovative Earth-Loving Friendly Organization.

The ELFO is more democratic than the United Nations: in our ELFO not only States, but also autonomies and individuals may be its members. ML (Mail List) membership will facilitate popular character of the ELFO because **ML Members have no duty but rights (e.g. one vote or participation in an event)**.

The PURPOSES of these organizations are: to contribute to peace and development of friendly relations among nations based on respect for the principle of equal rights, and to that end: to promote **friendly relations** of civil organizations and common people, among others, through personal exchanges; and to promote interchanges in the field of education, science, culture, sports and others.

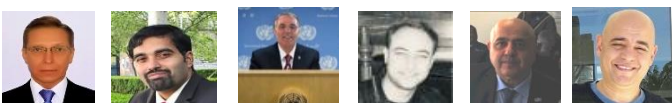

One of the most important principles among Earth-Loving Associates is **to respect natural friendship which derives from a simple fact that we are human beings**.

Principal organs. There will be established as the principal organs of these Organizations: President, a General Assembly, 22 Councils, an Earth-Loving Amicable Court and a Secretariat first stage of its development. There will be several Councils which may function on the basis of common people: a Friendship Council, a Financial and Industrial Council, an Educational, Scientific and Cultural Council, a Tourism and Hotel Council, a Sports Council, and a Youth Council etc.

Interstate Council. Among 22 Councils an Interstate Council will play great roles. At present there are about 100 VIPs & Diplomats. The first VIPs & Dip:

Solidarity Council. Whereas the Interstate Council is composed of VIPs and Diplomats of national character, Solidarity Council consists of Diplomats of international organizations such as UN (5 p.) and members elected by the General Assembly of the ELFO:

Friendship Council is very important because even at present time of the 21 century happen many conflicts. The Council will contribute to mitigate such antagonism, trying to promote friendship among world people.

International fests have been held by the **POCNA**. In Oct., 2015 I began to organize **EHS** (**Earth Home Stay Associates**) which led to **ELA (Earth-Loving Associates)**. At present of coronavirus, we are obliged to hold **e-Earth-Loving Festival**, in which many ELA-Artists (pic.) take part.

Article 53 of the ELFO Charter stipulates the construction of **HOUSES** for **Peace, Welfare & Amity**. I already built such a HOUSE N.1 in 2014 (pic.).

Financial-industrial Council will contribute to stimulation of commerce and business which will serve economic development for the better world community. In 2014 I created a company named **Earth-Loving Company** which I expect to support the ELFO Family.

To create **Earth-Loving Banks** is one of our goals.

Sport and Games Council. Here Go game is regarded as an ELFO game. An international Go match by Internet TV in my said HOUSE.

Earth-Loving Amicable Court.(ELAC) is to be located in India of non-violence. Here Dr. Prof. Mr. Sreenivasulu, Adv. Ms. Chitrangali Negi and many other competent lawyers are our members.

Regional Earth-Loving Headquarters

In the future there will be many RELHQ's (the said org) though now there are the followings:

1. **South Asian General Headquarter in Nepal**, Anuska Joshi is its Repr.

2. **North African General Headquarter in Egypt**, Ahmed El-Shaarawy is its Repr.

3. **West African General Headquarter in Ghana**, its Repr. is Ivo Arrey Mbongaya

4. **Pacific Ocean General Headquarter in Nauru**, Chubasco Diranga is its Repr.
