

Joint Declaration of the ICO and the ELFO

CONSIDERING RUSSO-UKRAINIAN WAR IS VERY CRITICAL, CHARGED WITH NUCLEAR WAR, WE THE MEMBERS OF THE ICO (International Conciliation Organization) AND THE ELFO (Earth-Loving Friendly Organization) DETERMINED

to research possibility or probability of actual nuclear war, and its sequence of cause and effect;
to try to find the motive, if it is to end war as soon as possible, if it is restricted to Ukraine or not;
to contribute to general ceasefire, restoration of peace and friendship between Russia and Ukraine;
to appeal to reasons of belligerent and other interested States to save precious lives and the blessed Planet;
to make the greatest efforts so that world people see HOPEs and LIGHTs, neither distress nor hatred;

TO PROPOSE TO BELLIGERENT RUSSIA AND UKRAINE:

to stop war soon without conditions and to begin immediately negotiation for truce, peace and amity;
to commence negotiation immediately, even continuing fighting, if immediate truce is impossible for them;
to refrain from escalating military, political actions and behaviours which lead to far worse situation;
to remember that this war is exerting very bad influences not only upon belligerents, but also world people;
to research always peaceful means of stopping war, hearing modestly many proposals addressed to them;

TO PROPOSE TO STATES SUPPORTING ONE OF BELLIGERENTS:

to consider probability of escalating war, killing more people, devastating Ukraine with its worst scenario;
to refrain, therefore, from participating in the war or providing belligerents with modern heavy weaponry;
to rather persuade belligerents to begin negotiation for truce and restoration of peace and amity;
to consider and never forget numerous world people's pure, simple aspiration after immediate end of war;
to talk, therefore, with belligerents and the States supporting them for ending war as soon as possible;

TO PROPOSE TO NEUTRAL STATES:

to try, first of all, to persuade belligerents to begin negotiation immediately for truce, peace, and amity;
to try to persuade also supporting States to call for immediate negotiation for truce, peace, and amity;
to try to present, if possible, draft of general or partial of truce, points of international treaties concerned;
to try to solidify such neutral States or create their international conciliation organization;
to try to join our ICO even if provisionally because it has already formulated fairly many points concerned.

(Please see pp.11~16.)

DONE at the city of Sapporo, the twenty-fourth day of February, two thousand and twenty three, when just one year has passed since beginning of Russo-Ukrainian War.
