

My Draft greeting before Ukrainian side and ICO dialogists (ウクライナ側と ICO 対話者への挨拶案文)

Dear Ukrainian President Volodymyr Zelensky, dear distinguished authorities of Ukraine, dear ICO dialogists from many countries, and all the people who cooperated with us!!

I am very pleased that today all of us could see each other and talk about conciliation for friendship and peace which are very important not only between Ukrainians and Russians, but also among all the nations on our precious Planet.

Representing our ICO composed of more than 400 VIPs, Diplomats, Scholars, Judges, Peace Ambassadors etc., I wish that today's Zoom meeting for online conciliation be a light and a hope for world people who aspire after true peace and amity on our Earth.

Today let's try to lay out the first way of our efforts which would lead to ceasefire, restoring peace and amity between Ukraine and Russia. I expect that ICO dialogists express such wishes as would promote ceasefire and restoration of peace, and that Ukrainian participants answer kindly if they are ready to agree to ICO presentators' proposals, and that if so, to what extent.

It is obvious that all human beings must make efforts, first of all, to save human beings, respecting personality of each of them, secondly, to make our Planet more beautiful, not by destruction, but construction, Let's try to restore blessed peace and amity as soon as possible!!

I wish all of you happiness, health, success, security and calmness in mind.
Thank you.
