President's Message

Respecting national and all human interests

Harmony, Respect, Love, Good, Beauty

N. 80. JAN 1, 2022, ELFO:<http://mopw.org/>

More VIPs and Diplomats

Now there are 230 VIPs and Diplomats in our ELFO. Let's make an effort so that there would be around 400 such dignities at the end of this year. Let them be source of HOPEs for us and people!!

More MPs and Autonomies

In order to develop the ELFO more inclusively, let's invite Members of Parliament (MP) and many autonomies around the world. VIPs and National Associations may play a role in this respect.

More Artists

I feel presentiment that in our ELFO Artists will play considerable role in uniting numerous world people in cooperation with other members. First of all, art is joy for us. This year let's create many Earth-Loving Songs and other objects of art!!

Financial and industrial activities

It seems to me that creation of an Earth-Loving Company (ELC) is not so difficult for the ELFO or a member. So this year let's encourage to establish the ELC in countries where members are passionate.

More national Associations

Secretariat has built base of national HP (<http://mopw.org/e-framepage.html>) Let's make efforts to create a lot of national ELFA (Earth-Loving Friendly Association)!!

Strict application of friendship rules

Our ELFO is an Earth-Loving **Friendly** Organization, so that each member must be friendly. As our members are increasing, it is possible that some of them behave unfriendly. In such case, I expect that ELFO organs would apply strictly rules on maintaining friendly relations among members.

HAPPY NEW YEAR!

May ELFO grow unprecedentedly

Our ELFO is an very unique organization of all human beings character, which has already its own considerable value on our Planet, I expect from the bottom of my heart that all the ELFO members recognize our potential power, trying to promote **Friendship, Peace, and Rule of Law** among nations.

Ideals, Purposes, and Goals

Our ideals, porposes, and goals are high, so that don't imagin it may be realized soon. Rome was not built in a day. On the contrary, some of them may be very difficult to be realized. Nontheless I proposed hight ideals, for example:

Rule of Law, Peaceful Settlement, Disarmament, Restriction of Sovereignty, World Federation

Cooperation among members is needed more this year. It is, however, a fact that in these hard times, volunteerism is not so easy. But members began to know each other more.

Last year as ELFO President I made up almost all the proposals or plans to GA (General Assembly) and other organs. But this year I expect other leaders become more active with rule-making and designing plans..

Hello my dear respected brother Mr. President Rikio kaneko . Thank you for the greetings of the message. Thanks for sharing . I believe I will be surprised to make the effort to sing this song. It is not easy to sing a song in English.

I would prefer it in Spanish ☺, but I know it may be impossible due to the language of the member brothers ..

But there's no problem there anymore to take risks in the song of mother earth. Happy New Year to the members of the ELFO family. Happy New Year .
