

H.E Volodymyr Zelenskyy President of Ukraine Your Excellency

I am Yuba Nath Lamsal, former ambassador of Nepal to Denmark and concurrently accredited to Norway, Sweden, Finland, Lithuania, Latvia and Estonia. I am currently a writer and analysts on geopolitics and international affairs.

Excellency,

The war in Ukraine has caused serious concern all over the world. Many innocent Ukrainians have lost their previous lives due to the war. Many others have fled the country to escape from the inhuman war and are living in several other countries as refugees. Public and private property worth billions has been destroyed. War cannot be justified under any pretext. No one wins in war. It is the diplomacy through which conflicts and disputes need to be resolved. I call upon you, Your Excellency, to initiate diplomatic dialogue and end the war in Ukraine. It is my firm belief that reason prevails and the war comes to the halt so that further damage and destruction can be prevented.

It is also my appeal to Russian President Vladimir Putin to immediate cease offensive and withdraw troops from Ukraine. It is only in peace that humanity thrives.

I, therefore, sincerely call upon all parties concerned to contribute to peace at home, peace in the region and peace in the world. I also call upon the United Nations and other multilateral organizations and the entire international community to take initiative for bringing the war in Ukraine to an end.

As for ICO's official original proposals on demilitarization, please see the 6 clauses mentioned in the annex.

### 3. Demilitarization

Neutralization partakes politico-diplomatic and military character, while demilitarization partakes mainly military character imposing restrictions in respect of weapons and region. We are pleased if belligerents agree to following points.

1. If restrictive burden is heavy on Ukrainian shoulder, then to that extent, Russian burden will be also heavy.

2. In Ukraine such 3 non-nuclear principles are to be applied as in Japan for a long time, namely: not producing, not possessing and not allowing the entry of nuclear weapons into the country.

3. Along the Russo-Ukrainian border, will be created a demilitarized zone with certain width of regional belt.

4. Our ICO proposes to Russians and Ukrainians to change the said zone into not arena of quarrels, but on the entire contrary, into a place where spirit of peace, friendship, welfare, and cooperation rules.

5. A definite zone (for example, 1km.) around an atomic station shall be demilitarized, and it shall not be a battlefield.

6. Ukraine shall neither locate military objects within or near a port which are used for exporting food, nor use such a port for importing weaponry and other military purposes.
